- 1.2. Measurement certificates and class membership cards are subject to inspection at any time, as are all boats, by Paxton Lakes and class association officers.
- 1.3. Boats not meeting class rules due to training fit out or replica parts that do not unfairly promote performance will be allowed.
- 1.4. For any classes that have changes to Rule 42 Propulsion within their class rules, these will not apply during this regatta.
- 1.5. If there is a conflict between languages the English text will take precedence.
- 1.6. All teams must register at the registration desk on arrival on 5th July before 11:30 am.

7. The Course

- 7.1. The diagram in Appendix A shows the approximate position of the club marks. The course to be sailed will be displayed on the main course board on the side of the start box.
- 7.2. If at any time it is necessary to alter the course (e.g. during the night or for a change in the weather conditions) this will be signalled by repetitive sound signals and by raising code flag 'C'. The new course will be displayed in front of the start box. Boats should finish the lap that they are on before following the new course. Where possible teams will be notified of the change in advance; also where possible the safety boat crew will inform each boat of the change. Code flag 'C' will remain hoisted until all boats have begun to follow the new course. This procedure will be repeated when reverting to the original course.
- 7.3. If at any time it is necessary to halt the race (e.g. due to weather conditions or safety) this will be signalled by raising code flag 'S' and two sound signals. Boats should complete the lap and return to shore. Once all boats have returned to shore code flag 'AP' will be hoisted with a numeral pennant to indicate the approximate duration of the halt in hours. Racing will resume with a new start sequence at the time published on the official notice board.
